

Purpose

The **Editing Communities** tool enables authorized users to digitize community boundaries within their jurisdiction.

Note: Check with your organization's EST administrator or call the Help Desk for information about EST privileges.

Instructions

Open the Map Viewer and zoom to a location on the map.

Step 1: Click Tools.

Click the **Tools** link to expand the map tools panel.

Step 2: Click Communities.

In the **Tools** panel, click the **Communities** icon.

Tip! See the Interactive Map Viewer tip sheet (located in the EST's **ETDM Library**) for an overview on using the **Map Viewer**.

Creating a New Community Boundary

- **a.** Click the **Create New Community** link.
- **b.** Type the **Name** of the community.

C. Provide a brief background of the community in the **History** text box.

d. In the **Goals & Values** text box, type or copy and paste information regarding the community's goals.

Note: The **Name** field is a required field. The **History** and **Goals & Values** fields are optional.

Tip! The Community Editing tool enables you to delete all or part of a drawing.

Click the **Undo** button to clear the last graphical change.

Click the **Delete** button to erase the current drawing.

You can also erase a vertex by right-clicking on the selected point and then clicking **Delete Vertex**.

Drawing the Community Boundary

a. Click the **Draw** icon to activate the drawing tool.

b. Click once on the map to begin drawing. As you draw, a line and boxes will appear. Double-click on the map to finish drawing the polygon.

Note: You must click three vertex points on the map to establish a polygon area.

Editing the Community Boundary

- **a**. To change the shape of the community boundary, click the **Edit** icon to activate the editing tool.
- **b.** Click and drag a vertex or midpoint to the desired location.
- **C**. Click **Save** to preserve the community boundary shape.

Edit Community Features

Name

East Coast Palms

History

East Coast Palms is a new residential section of Tampa that was established

in 1998. It is surrounded by a wildlife preserve and is five miles from federally

protected lands.

Goals & Values

The community wants to expand the number of residential homes and private

Image: Community wants to expand the number of residential homes

Note: When drawing an area, the tool does not allow the polygon boundary to intersect itself.

Tip! Click the **Save** button to save the drawing and commit your changes to the EST database.

You can click **Save** at any time during the drawing or editing process as long as the basic validation rules have been met:

✓ The community name has been entered into the Name field in the Edit Community Features form.

 \checkmark At least three digitized points are on the map.

✓ The polygon boundary does not intersect itself.

Search for Existing Communities Features

Searching for and Editing a Community Boundary

- **a.** Select **Community Name** from the list box.
- **b.** Enter the name of the community in the text box.
- C. Click Search.

d. Click the **Edit Boundary** link to display the boundary shape on the map and then make your changes following the steps for editing a community boundary listed on page 4 of this tip sheet.

Searching for and Editing a Community Boundary by ETDM Project Number

a. In the **Search for Existing Communities** dialog box, select **ETDM Project #** from the list box.

b. Enter the ETDM Project number in the **Search** box (the box automatically displays the ETDM Project number of the project listed in the **Active Project** field located in the EST **Project Navigation** bar.) You can change the number in the **Search** box without selecting it as an active project.

- **C.** Enter the buffer distance to search for communities within a specified distance of a project.
- d. Click Search.
