

Overview

The Map Viewer provides easy access for displaying map layers and analyzing resource data related to transportation projects.

Quick Steps

- 1. Tools Panel Displays the map tools.
- 2. **Toggling Tools** Clicking on the blue header will expand or collapse a tool. Hide or show the overall panel by clicking the arrow tab in the middle, right of the panel.
- 3. **Zooming** Adjust the map magnification by zooming in or out. Clicking the home button will return the map to the state-level view.
- 4. Find Address or Place Type the address or place name in the search bar for the map to navigate to that specific location/point.
- 5. Basemap View Display a dropdown list containing the various options for the main basemap view.
- 6. **Help** Displays a variety of help topics such as navigation or search tips. Additionally, help videos and quick reference documents can be accessed in this section.
