*Efficient
Transportation
Decision
Making*

**District 3 ETAT Meeting-
October 21st, 2008**

What's New on the EST?

The screenshot displays the EST software interface. On the left is a map view. In the center, a 'Community Characteristics Inventory' window is open, showing a table of data. On the right, an 'Offline Activities: Batch Uploader' window is visible, containing fields for file upload, agency selection, and date filtering, along with a validation list.

Community Statistics	Community Characteristics Inventory
Population	6,218
Area	1.51
Counties	7
Total Pop	2,67
Total Households	57
Avg Persons per Acre	5
Avg Persons per Family	28
Under 18	0.01
65 or higher	9
Median Age	18
Total	16
Units per Acre	4
Total Single Family	1,512,400.00
Total Multi-Family	
Total Renter Units	
Total Owner Units	
Total Vacant Units	
Median Household Value	

Offline Activities: Batch Uploader

Upload File: C:\Documents and Settings\stephanie.clemons\D

Agency: FL Department of Community Affairs

Filter Start Date: 08/01/2008

Filter End Date: 08/03/2008

Validation

- This uses the batch upload spreadsheet (Opens in a new window)
- The data must be in the first sheet of the Excel file.
- The first row of the sheet must contain the column names.
- The column names cannot be changed or deleted.
- Only activities that occurred between the filter start and end dates will be imported, you may leave either or both blank if you would rather import all events instead of filtering them.
- ETAT Member Name must be a valid ETAT member for the selected Agency and match one of the following patterns: "First Middle Last", "First MI Last", "First Last", "Last, First Middle", "Last, First MI", "Last, First"
- Counties and Districts must be comma separated
- Activity Type must be in this list: [&, &&, Advance Notification, Field Review, Formal Coordination, Informal Coordination, Meeting, Technical Assistance, test]
- Work Program Phase must be in this list: [Construction, Design, PD&E, Planning]

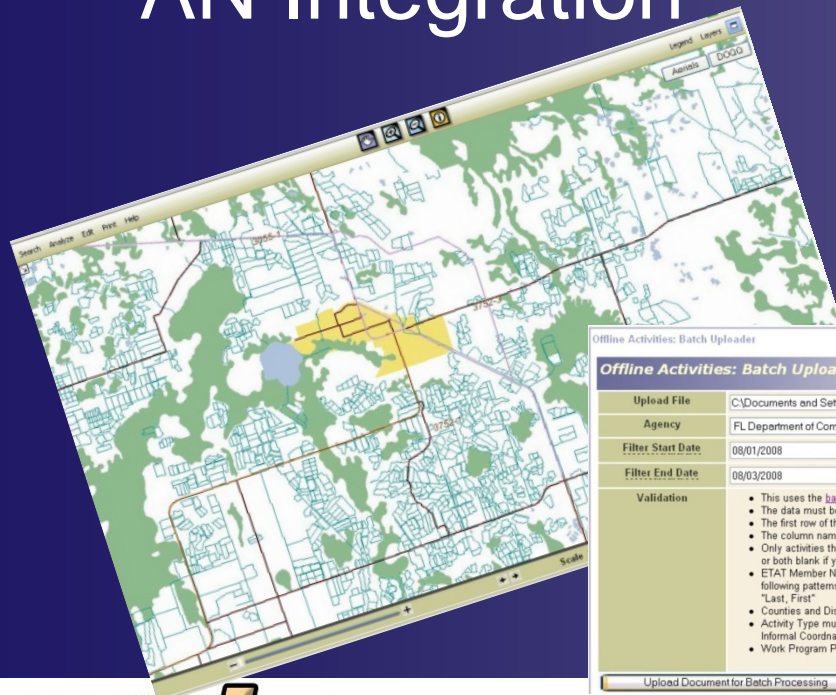

Upload Document for Batch Processing

Ruth Roaza

Major Enhancements

- New Map Viewer
- Offline Activities Batch Upload
- Community Characteristics Inventory
- AN Integration

Offline Activities: Batch Uploader

Upload File: C:\Documents and Settings\stephanie.clemens\Desktop\OfflineActivity\Batch\

Agency: FL Department of Community Affairs

The Video Log Viewer tool allows you to choose features from the FDOT Major Roads layer and view the roadway through FDOT's Video Log Viewer. Video is not available for all roads. **The Video Log Viewer will open in a new window.** Click the **Click Here...** button in the Video Log Viewer to load the initial frame and then click **Play Forward** to view the video.

Video Log Viewer	Select Road Name	Road ID	Begin Post	End Post
<input checked="" type="radio"/>	SR A1A	78040000	15.00	17.00

View Video Log

Select a feature from the table above by clicking on it.
Click the "View Video Log" button to launch the Florida DOT Video Log Viewer
for the selected road segment. Note that not all major roads are available in the Video Log Viewer.

Integrating ETDM, Advance Notification, and Federal Consistency Processes

New Integrated Process

How do ETDM, Advance Notification, and Federal Consistency fit together?

- Programming Screen notification constitutes Advance Notification (AN) and initiates Federal Consistency Review
- ETAT and Federal Consistency Reviewers use the EST to submit comments
- State Clearinghouse reviews comments and completes the consistency determination for Florida's Coastal Management Program

Preparing the AN Package

- ETDM Coordinator Ensures that the Following Items are Complete:
 - Project Moved to Programming Phase
 - Lead Agency Identified
 - Project-specific Contact List Created
 - Federal Aid Form Attached, if Applicable

Step 1. Send Notifications

- ETDm Coordinator sends electronic notifications to:
 - State Clearinghouse Coordinator
 - ETAT Members
 - State Federal Consistency Reviewers
 - Other Interested Parties
- Includes project identifier, instructions, and links to AN and website
- Initiates 45-day comment period

May be the same person for an agency

Step 2. Review Project

- Upon receipt of notification:
 - Review project Information provided in AN Package and on EST website
 - Coordinate activities and project commentary within agency
 - Submit comments or request extension within 45 days
 - ETAT and State Federal Consistency Reviewers submit comments on EST
 - Other interested parties submit comments via email, written correspondence, or public workshops

Step 2. Review Project (cont.)

- ETAT - specific responsibilities
 - Comment on purpose and need
 - Describe project effects to resources under agency authority
 - Recommend avoidance/ minimization
 - Suggest mitigation strategies
 - Assess degree of effect
 - Coordinate to reduce conflicts

Step 2. Review Project (cont.)

- Federal Consistency Reviewer - specific responsibilities
 - Review projects for consistency with the Florida Coastal Management Program, as pertains to agency authority
 - For inconsistency findings:
 - Cite relevant statutes
 - Identify actions to resolve the conflict
 - Immediately notify the State Clearinghouse of identified problems

Tools

- Maintain Project Diary
- Record Results of Project Review
- Document Public Involvement Activities
- Coordinate ETAT Activities

Federal Consistency Finding

Federal Consistency Finding

#8331 Test Project - Dankert

District	District 2	Phase	Programming Screen
County	Alachua County	From	A
Planning Organization	FDOT District 2	To	B
Plan ID		Financial Management No.	
Contact Name / Phone	Don Dankert (800) 749-2967 ext. 7791	Contact Email	donald.dankert@dot.state.fl.us

Federal Consistency Finding:

State reviewers should note that if a finding of inconsistency is made, the finding must cite the section of the relevant statute under that agency's authority with which the project is inconsistent, and must identify actions that can be taken to resolve the conflict. Prior to actually issuing a finding of inconsistency, the reviewing agency should **immediately** notify the Clearinghouse of identified problems. (phone 850-245-2161 or Suncom 205-2161.)

Step 2. Review Project (cont.)

- For agencies with different ETAT and Federal Consistency Review personnel
 - Ensure Federal Consistency Review and ETAT comments are not in conflict

Recommendation:

Consider assigning the commenting responsibilities to the same individual

Step 3. Summarize Reviews

- State Clearinghouse Coordinator submits Consistency Determination within 15 days
- FDOT District ETDM Coordinator summarizes ETAT comments and publishes Preliminary Programming Screen Summary Report within 60-days
- Reviewers receive email when summary report is available

Project Description

Consistency

- Consistent with Air Quality Conformity.
- CONSISTENT, WITH COMMENTS with Coastal Zone Management Program.
 - Comment: Based on the information contained in the EST and state agency comments, the state has no objections to allocation of federal funds for the subject project and, therefore, the funding award is consistent with the Florida Coastal Management Program (FCMP). The applicant must, however, address the concerns identified by our reviewing agencies prior to project implementation. The state's continued concurrence with the project will be based, in part, on the adequate resolution of issues identified during this and subsequent reviews. The state's final concurrence of the project's consistency with the FCMP will be determined during the environmental permitting stage.
 - Submitted By: FL Department of Environmental Protection
 - Comment Date: 2008-08-25 09:55:03.0
- Consistent with Local Government Comp Plan.
 - Comment: The DCA Department staff has discussed the effects on roadway level of service standards with Florida Department of Transportation District 4 staff because the roadway crosses a portion of the North Fork of the St. Lucie River defined as a Coastal Emergency Management Flood Area. District staff has indicated that potential changes to level of service standards resulting from this project have not been determined. Coastal High Hazard Area Policy 5.1.4.2 of the City of Port St. Lucie Comprehensive Plan states that new roads or improvements in the coastal planning area should be completed in order to increase the number of traffic lanes for hurricane evacuation. The majority of the Coastal High Hazard Area served by the project is fully developed. Therefore, staff has not identified issues related to increasing population concentration within the Coastal High Hazard Area. Of the six alternative corridors have been identified for evaluation, one of these project corridors (Village Green Drive) is consistent with the currently adopted City of Port St. Lucie Comprehensive Plan. If alternative project corridors other than the West Virginia Drive/Village Green Drive are selected in order to extend the Crosstown Parkway, those project alternatives should not be advanced into the Florida Department of Transportation's Five Year Work Program until the City of Port St. Lucie comprehensive plan is amended to reflect the proposed roadway modification.
 - Submitted By: FL Department of Community Affairs
 - Comment Date: 2008-08-04 16:22:54.0
- Consistent with MPO Goals and Objectives.
